New Field: Number of Hours in ED

For discharges with an admission source, revenue code (HIDD only) or ED flag denoting the patient came from the hospital's ED, CHIA is requesting the **number of hours** the patient was in the ED before the transfer to an inpatient bed or outpatient bed

Number of Hours in ED	9(3)	R/Z	103 105	- Must be present if Source of Admission is 'R' – Within hospital Emergency Room Transfer - Must be present if Revenue Codes 045x are used - Must be present if ED Flag is set to 1 or 2.	Note
------------------------------	-------------	------------	--------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------

Comments:

CHIA is expecting the providers to report the number of hours in the ED; truncating any partial time. There is no rounding, either back or forward, just a whole number entry.

Examples:

Q1: If total time in the ED is 2 hours and 29 minutes what would you expect to see for total number of hours?

A1: The entry is "2"

Q2: If total time in the ED is 2 hours and 30 minutes what would you expect to see?

A2: The entry is "2"

Q3: If total time in the ED is 2 hours and 31 minutes what would you expect to see?

A3: The entry is "2"

New Fields: ED Registration Date and Time

For discharges with an admission source, revenue code (HIDD only) or ED flag denoting the patient came from the hospital's ED, CHIA is requesting the **ED registration date and time**.

Emergency Department Registration Date	X(8)	L/B	106 113	<ul style="list-style-type: none"> - Must be present if Source of Admission is 'R' – Within hospital Emergency Room Transfer. - Must be present if Revenue Codes 045x are used - Must be present if ED Flag is set to 1 or 2. - Must be valid date format (CCYYMMDD). - Must be less than or equal to ED Discharge Date. 	Note
Emergency Department Registration Time	9(4)	L/B	114 117	<ul style="list-style-type: none"> - Must be present if Source of Admission is 'R' – Within hospital Emergency Room Transfer. - Must be present if Revenue Codes 045x are used - Must be present if ED Flag is set to 1 or 2. - Must be numeric. - Must range from 0000 to 2359. 	Note

New Fields: ED Discharge Date and Time

Submission Guides Published to CHIA Website <http://www.chiamass.gov/hospital-data-specification-manuals/>

The screenshot shows the CHIA website interface. At the top left is the CHIA logo. To its right are navigation links: HEALTH INFORMATION AND ANALYSIS, CHIA DATA, and ABOUT CHIA. A search bar is located in the top right corner. Below the navigation is a horizontal menu with five items: MA APCD, Case Mix Data (highlighted in dark blue), Hospital and Other Provider Data, Information for Data Submitters, and Public Records Request. The main content area features a breadcrumb trail: CHIA Data » Acute Hospital Case Mix Data » Information for Data Submitters: Acute Hospital Case Mix » Hospital Case Mix Data Specification Manuals. The title 'Hospital Case Mix Data Specification Manuals' is followed by a horizontal line. The text below explains that these manuals provide detailed information on data file format, specifications, definitions, and quality standards. It also notes that CHIA has released both final and redline versions of FY17 Hospital Draft Case Mix Data Specifications and Payer Sources Codes. A link is provided for submission guides effective from 10/1/2014 to 9/30/2016. A section titled 'FY17 Final Hospital Case Mix Data Specifications' lists several documents with their respective dates and formats: Hospital Inpatient Discharge Data Specifications (October 2016 PDF | Word), Hospital Emergency Department Data Specifications (October 2016 PDF | Word), Hospital Outpatient Observation Data Specifications (October 2016 PDF | Word), Transfer Organization ID (ORG ID) List (February 2017 Excel), and Payer Source Codes (June 2016 Excel).

Upcoming Activities:

Verification Reports:

HIDD Interim Reports will be coming out within the next couple of weeks, followed by EDD.

These reports do not require any formal response but can be used to help ensure everyone is on-track for clean deliverables prior to FY16 reporting for Case Mix.

CHIA Question (from the Provider Finance & Analysis team)

In reviewing 403 Cost Reports, a trend has been noticed where HIDD Discharges and ED Visits tend to count higher than what is totaled from their respective Case Mix filings.

The team is interested in Hospital input on reasoning that may justify the increases against the filed Case Mix data.
