AH Acute Hospital Discharges per Zip Code

Shriners Hospitals for Children had 314 acute hospital discharges in Massachusetts in FY 2016. Map has been suppressed as no community accounted for more than 25 of the system's total discharges.

This report focuses on the hospital health system. Shriners Hospital Boston (SHB) and Shriners Hospital Springfield (SHS) are part of the national Shriners Hospitals for Children system (SHC) and are reliant upon support from the SHC endowment to cover the costs associated with fulfilling their mission to provide care to patients regardless of their ability to pay. This support is provided through transfers from the SHC's endowment to the hospitals, as these transfers are not considered revenue for the purpose of calculating profitability margin, SHB's and SHS's profitability margins are not comparable to other acute hospitals.
