

## Alternative Payment Methods

### Weekly TAG Call

April 2, 2013

#### I. Updates to Payer Reporting Documents

- In the Provider Payment Methods Data Specification Manual, field **HD005 [Zip Code Record Count]** is being removed (on page 9).
- The Uniform Provider List has been updated to include new OrgIDs requested by payers.
- Revised versions of the PPM DSM and Uniform Provider List have already been posted to the CHIA website.

#### II. Reminders on RP/PPM data

- Relative Price and Provider Payment Method submissions should be based on primary payer data only, in order to accurately reflect contractually negotiated prices.
- TME data submitted on May 1<sup>st</sup> should be based on the payer's own contracting structure and does not need to match the CHIA Uniform List.

#### III. Payer Calls

- CHIA will conduct 30-minute private calls with each payer to discuss progress and questions on data filings. Dorothy will email to schedule these calls over the next week.

#### IV. Next TAG call will be on Tuesday, April 9th at 3pm.
