Proposed TME Revision

- Report Product Type Code in field ZR003 (instead of PCP Indicator).

| Product Type Code | Definition |
|-------------------|------------------|
| 1 | HMO and POS |
| 2 | PPO |
| 3 | Indemnity |
| 4 | Other (e.g. EPO) |

- Enable CHIA to conduct analysis on TME by product type
- Align the zip code level information between TME and APM data

Next Steps

Annual Premiums Data Request

- Payer Questions
 - Submitting 2012 and 2013 Data
 - Fully-/Self-Insured Splits
- Additional Questions?
- Timeline

Submitting 2012 and 2013 Data

Question: Can payers use the same data submitted last year for 2012 and 2013 in this year's Request?

Answer: No. Please generate fresh data for 2012 and 2013, re-running queries to account for retro-activity, complete run-out, and specification consistency.

Fully-/Self-Insured Splits

Question: CHIA is requesting premiums and claims data be split by fully-insured and self-insured. Should we go back to 2012 and 2013 and split out that data?

Answer: Yes. We ask that payers split out claims data by fully- and self-insured for all three years, not just for 2014.
