Introduction

The Center for Health Information and Analysis (CHIA), in accordance with its statutory authority under M.G.L. c. 12C, collects cost reports in furtherance of its mission to monitor the health care system in Massachusetts and to provide reliable information and meaningful analysis for those seeking to improve health care quality, affordability, access and outcomes. The data CHIA collects through the Management Company/Central Office Cost Report (MGT-CR) is used, among other things, to support the rate-setting obligations of the Executive Office of Health and Human Services (EOHHS), which uses the data to establish rates for nursing facility and residential care facility providers, and to complete additional analyses to inform policymaking. Once filed with CHIA, these reports become public documents and will be provided upon request to any interested party.

It is essential that these reports are prepared by persons who are familiar with the regulation 101 CMR 206.00 Standard Payments to Nursing Facilities and/or 101 CMR 204.00 Rates of Payment to Resident Care Facilities. Copies of these regulations may be obtained on the Executive Office of Health and Human Services' (EOHHS) website at <https://www.mass.gov/lists/provider-payment-rates-hospitalsnursing-facilities-and-rest-homes>.

The CHIA MGT-CR is an electronic filing located at <https://chiasubmissions.chia.state.ma.us>.

For assistance in completing these forms, contact the CHIA Help Desk at Costreports.LTCF@chiamass.gov.

IMPORTANT: Please Clear your Cache!

As part of continuous improvement of the Nursing Facility Cost Reports, changes and upgrades have been implemented. In order for the system to function properly, SNF/MGT/REA Cost Report users should clear their web browser cache.

Clearing your web browser cache will ensure that you are viewing the most recent version of SNF/MGT/REA Cost Reports. If you do not clear your cache it may cause your browser to display older versions of SNF/MGT/REA Cost Report and generate error messages.

Instructions on how to clear your cache can be found here: <https://www.mass.gov/guides/clear-your-browser-cache>

Changes To The Cost Report And Helpful Cost Report Filing Tips For CY2022

In an effort to improve cost report accuracy and promote a smoother user experience, below are some changes and cost report filing tips for users when filing the MGT Cost Report:

- As an enhancement to the data quality and user experience of all three cost reports, CHIA has instituted a new loading screen when selecting “save and validate” for each schedule. Please wait until the “save and validate” process has completed. The screen tells users to “please wait a moment” as the schedule is validated and will not let the user advance until the process is done. As a reminder, in order to “lock for review” on the Submission and Attestation schedules, users must “save and validate” each schedule of each cost report.
- CHIA wants to remind providers to pay close attention to a few key areas of the cost report when preparing the NF-CR. Please ensure that you are following the instructions for reporting add-backs from the REA-CR and MGT-CR, where applicable.
- Based on updates to the regulation 101 CMR 206.00 that went into effect in October 2022, expenses paid for using funds from any low interest or forgivable loan administered by EOHHS must be reported as non-allowable costs. These expenses should be self-disallowed.

Filing Requirements

Who Must File?

All nursing and residential care facilities must file MGT-CR for each entity for which it reports either management or central office expenses related to the care of Massachusetts publicly-aided residents, in accordance with Section 206.08(c) of Title 101 of the Code of Massachusetts Regulations (CMR).

When to File

The MGT-CR is a calendar year cost report. All management companies of nursing facilities will receive an E-blast notification of the cost report deployment, which will include filing deadlines for the management company cost report. Additionally, filing deadlines will be posted on CHIA’s webpage located at [Information for Data Submitters: Nursing Facility Cost Reports](#). Reports not received within the filing deadline will be subject to sanctions according to 101 CMR 206.08 or 101 CMR 204.07. No additional extensions will be granted beyond this date.

How to File

The MGT-CR is an electronic cost report filed using the CHIA Submissions website at: <https://chiasubmissions.chia.state.ma.us>. Once you submit the cost report, you have filed. For additional information on how to complete your submission, please see the Final Check Off section below.

PLEASE NOTE: For optimal performance, CHIA recommends users access CHIA Submissions and the MGT-CR using Google Chrome®.

General Information

For assistance in completing your submission, contact the CHIA Long-term Care Facility Help Desk at Costreports.LTCF@chiamass.gov.

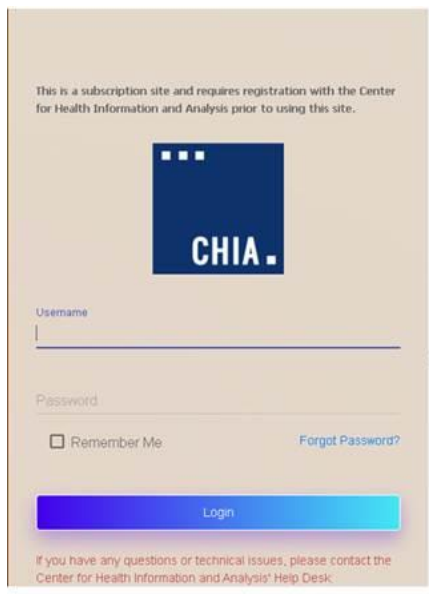

The MGT-CR must be completed on the **accrual basis**. **It is essential that each report reflect the entire financial activities of the management company. (Partial reporting is not acceptable.)** There is a minor exception to this requirement. Certain timing differences between the books of the provider and the claim for reimbursement requirements may occur which could result in modest variances between the report and the provider's books. Schedule 5 of the MGT-CR, Reconciliation of Income per Report with Income per Books, should identify the variances.

In addition to being a complete financial statement, these forms are used as a basis for establishing rates of payment.

General User Instructions

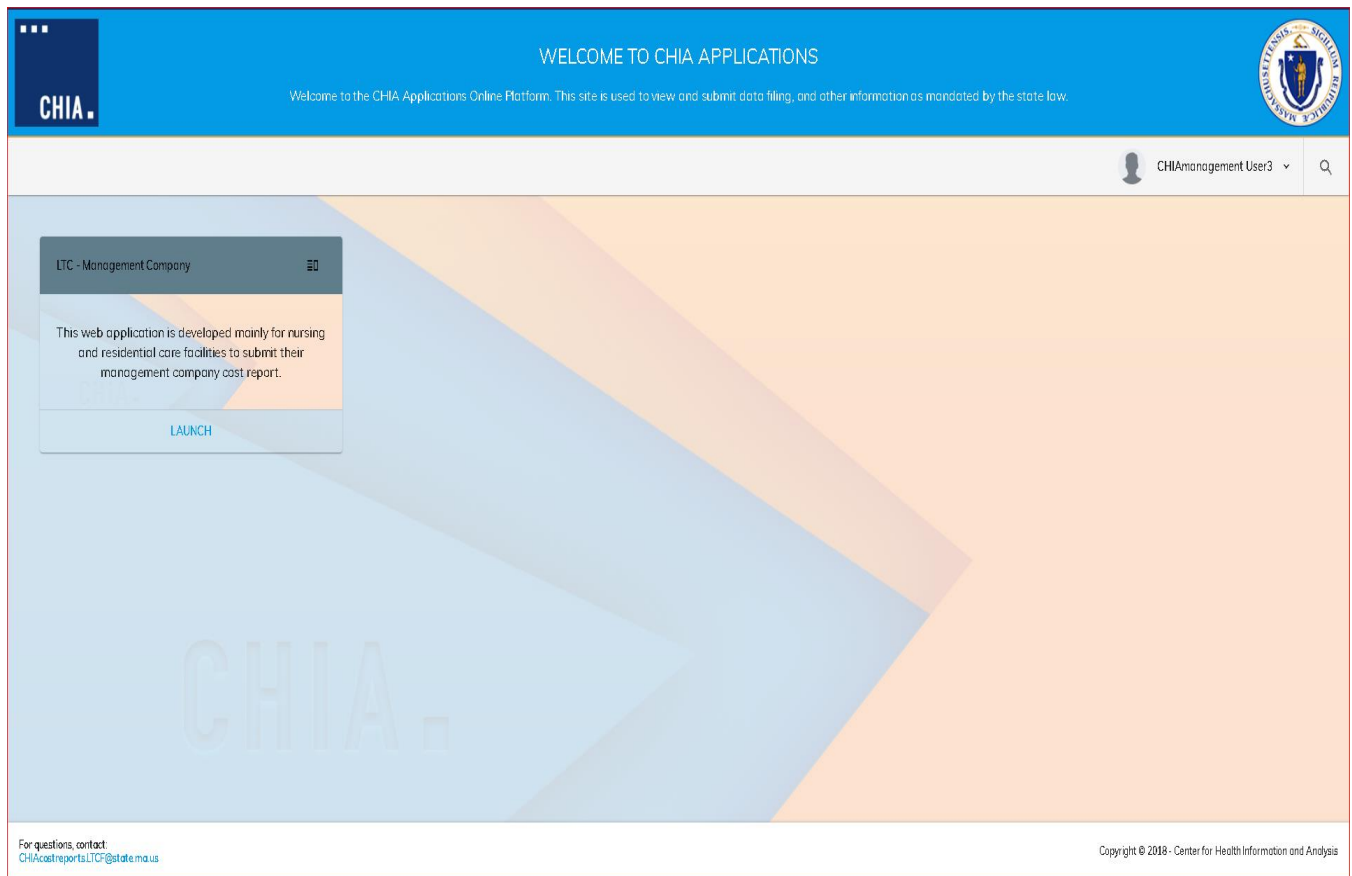

Logging In and Getting Started

Users will log-in to CHIA Submissions at <https://chiasubmissions.chia.state.ma.us> using their unique Username and Password, as follows:

The screenshot shows the login interface for the CHIA Submissions portal. At the top, a message states: "This is a subscription site and requires registration with the Center for Health Information and Analysis prior to using this site." Below this is the CHIA logo, which consists of a blue square with three white dots above the text "CHIA.". The login form includes a "Username" field, a "Password" field, a "Remember Me" checkbox, and a "Forgot Password?" link. A blue "Login" button is positioned below the password field. At the bottom, a note reads: "If you have any questions or technical issues, please contact the Center for Health Information and Analysis' Help Desk."

Next users will select the “Launch” button under the LTC Management Company application module (NOTE: This is the MGT-CR.) Users may have access to more than one application, such as the SNF-CR or the REA-CR.

This will bring the user to the home screen of the MGT-CR.

Home Screen

Your home screen is customized for your user privileges and will be like the picture below.

If you have user privileges for more than one management company, you will need to select the company from the organization list to the left. Once the company is highlighted, the schedules will be active for you to report your data.

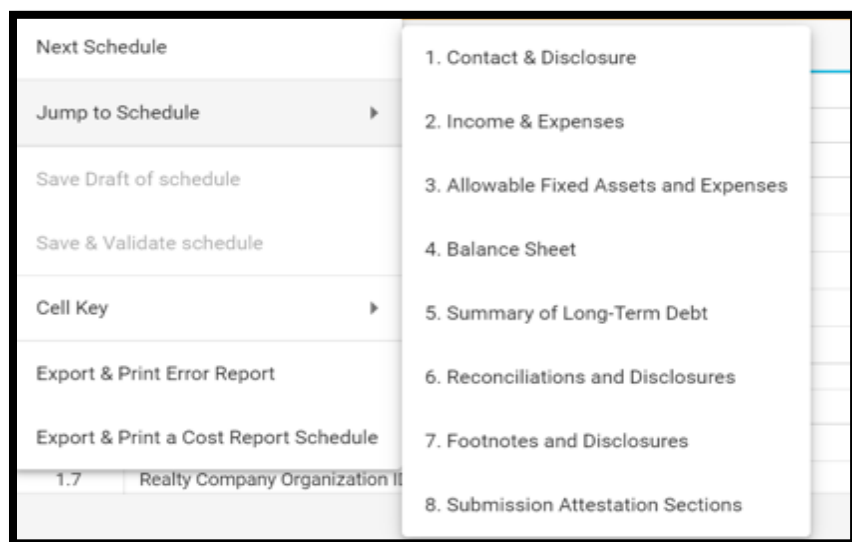

Users with access privileges to only one management company will not have an organization list in their view.

Cost Report Year Selection

A user may change the reporting year by using the dropdown menu at the top of the screen labeled “Select a Filing Year.”

Navigating in the MGT-CR

Users will need to enter data or provide responses to questions using drop down menu options or buttons for each data field in each Schedule. Users can use the Schedule number listing to the right or select the “Jump To” menu option available in the ellipses.

Saving Your Work

CHIA suggests that you save your reported data at frequent intervals as you move through each schedule of the cost report. To save your work, you can select the “Save as Draft” button which is located at the top right-hand corner of each schedule.

A screen will appear to “Cancel” or “Continue”. Select “Continue” to save. A screen confirming that the information is saved will appear. Select “Continue” again to return to the report.

Entering Data

Many of the data fields in the cost report have been formatted to accept data as text, whole dollars, and percentages. Some of the data fields will allow users to enter decimals and those fields are specifically indicated in the application.

When entering negative figures, users need to enter a negative sign (“-”) *AFTER* the figure as follows:
123,456-

Understanding Cell Colors

Each cell in the electronic cost report has been color shaded. The Cell Color Legend, illustrated below, provides an explanation of each color for how the cost report can be completed. Users are only able to enter information in the cells colored light blue or dark green. Cells with any other color will be either prepopulated from CHIA’s own system or from other cells in the cost report.

Cell Key	
Blue	Input by Data Submitter
Light Green	From CHIA Contact Management System
Dark Green	From CHIA Contact Management System or Submitter Input
Orange	Computation
Yellow	Derived from another Tab
Grey	Not Applicable
Dotted Blue	From Cell on this Tab
Red	Non-Allowable Expense
Red Border Blue	Must be less than or equal to zero

Note: Cells with red borders such as Accumulated Depreciation and Accumulated Amortization of Mortgage Acquisition Cost will automatically be shown as negative numbers.

Cell Locations

To identify the unique Location Reference for a data point, each item will use the Schedule, Line Number, and Column separated by colons such as Schedule: **Line Number: Column** (E.g., the data point for the fourth row of Table 1 on Schedule 2 would consist of **S.2: L.1.4: C.1**).

These are helpful when viewing hover messages indicating that the cell refers to another cell.

2.9	9541.5	MA Corp. Taxable Tax Non-Income Portion				0
2.10	9580.0	Insurance: Building, Building Improvements, Equipment	See Detail of Other Fixed Expenses (Table 3 Line 300).			20,756

2.12	9502.5	Other Operating Expenses		108,150		108,150
2.13	9502.4	Utilities & Plant Operations Expenses		0		0
2.14	9545.5	Interest on Working Capital			0	0
2.15	9546.0	Interest on Late Payments, Penalties			0	0
		Responsible				

Hover Messaging

Throughout the cost report, you will encounter grey hover messages when your mouse “hovers” over cells. These hover messages are designed to help in the following ways:

- Assist in providing information on the cell usage, i.e., percentage, number of decimal places permitted in a certain cell, etc.
- Assist with the location of the cell where data comes from. This is for cells colored yellow and dotted blue.
- Assist with what information should be reported in the cell.

An example of a grey hover message is illustrated in the picture below. This hover message explains that the data for line 3.3 “Other” is derived from a dynamic table. In this case Table 4.

Legal Status

The legal status is pre-loaded in your cost report and this status determines which type of owner's equity will populate your cost report. Please refer to the chart below to check that your management company has been assigned the correct legal status. If the legal status is not correct, please contact the CHIA long-term care cost report team at Costreports.LTCF@chiamass.gov.

Legal Code	Description	Profit / Non-Profit
1	MA Corp (Chapter 156B)	Profit
2	MA Corp (Chapter 156B with 501c (3) exemption)	Non-Profit
3	MA Non-Profit Corp (Chapter 180)	Non-Profit

Dynamic Tables

This cost report uses dynamic tables that can be expanded to allow for flexible entry of additional detailed cost information. These tables will appear to the right of the main schedule tables and require users to enter information in these tables that will be automatically carried over to the main tables.

Users can select the  button to add a line or hover over any added line number and click the red  to remove any line. An example of a dynamic table is illustrated below:

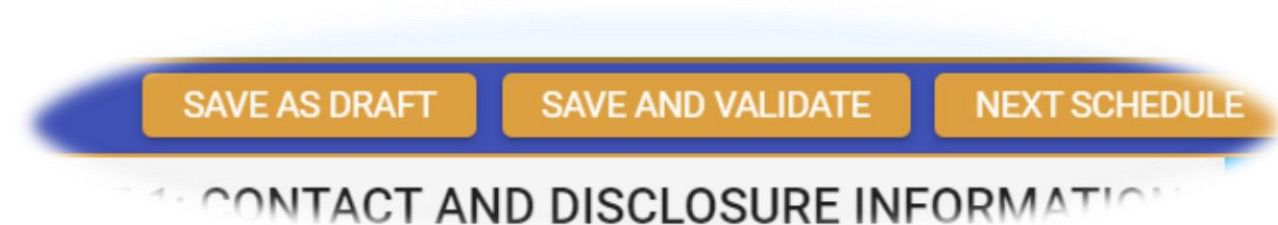

Line #	Description	Reported
3.1	Gain on sale of equipment	10,000
3.2	Investment Income	10,000
300	SUBTOTAL: OTHER INCOME	20,000

Data Validations

The MGT-CR includes several edits or checks within each of the eight schedules which need to be managed through the validation process described below. Preparers and submitters will not be able to lock the MGT-CR for review or submit the cost report unless all schedules have been validated and the errors fixed.

To ease this process, CHIA has created a validation report listing all validation errors. To access the validation report, you will select the: "Save and Validate" Button on the top right corner of each schedule.

When this button is selected, users will encounter the following:

Users will select “Continue”. Once this is done, there will be two results. If there are validation errors, users will need to select the method they would like to view the validation report, as shown below:

The validation report will provide users with the schedule number and line number of the error along with a description of what the problem is.

- If there are no validation errors, users will be notified that their schedule saved successfully and can continue completing the cost report.

Additionally, users can launch the validation reports two additional ways.

First, users can click on the hamburger menu button to pull down the menu options on the top left corner as follows:

Then users will select the “Save & Validate schedule” option. This option validates only the current schedule in your view.

Finally, users can launch the “Export & Print Error Report” from the hamburger menu button.

Next, users will be prompted to select which schedule(s) they would like to validate as follows:

Submitting Your Cost Report

All validation errors must be resolved before users can attest and submit their cost reports. The submission process is designed with the following process based on access privileges. Those users with data access privileges can only prepare the report. Users with owner, partner, or officer privileges can certify and submit their cost reports. CHIA recommends that management companies use the following process to successfully complete and submit the MGT-CR.

As illustrated above, users with data access only privileges, also known as preparers, prepare the cost report and, once complete, lock the report for final review. Only users with owner, partner, or officer privileges can certify and submit the cost report, which is managed on Schedule 8 of the report. NOTE: Users who have data access only privileges cannot access Schedule 8.

Preparers:

- Check Line 1.14 certifying the report. Owners, who are also preparers, have this privilege too.
- Select “Lock for Owner Review”

Reporting Management and/or Central Office Fees and Management Consulting Fees

Management Fees: Management fees refer to expenses incurred by nursing or residential care facilities for overseeing the administration and/or operation of all, or part, of facilities. Whenever management fees are incurred, they need to be reported on account line number 4160.3 on the cost reports for nursing and/or residential care facility, and require the filing of this Management/Central Office Report, Form MGT-CR. This is a requirement whether the management fee is filed or claimed for reimbursement.

Management fees are a disallowed expense. Allowable management company/central office expenses are allocated over the managed entities on Schedule 6 of the MGT-CR and are included in the basis for computing per diem rates.

In some cases, more than one management company/central office provides services to the same facility. In this situation, each management company/central office must file its own MGT-CR. This is possible because CHIA has assigned a separate management company identification number to allow for separate filings.

Consulting Fees: Consulting fees refer to expenses incurred for services provided to nursing or residential care facilities to complete a specific identifiable project, service, or task and which is performed by a contracted vendor. When consulting fees are incurred, they need to be reported on account line number 4160.6. An MGT-CR is not required to be filed if **only** consulting services are provided.

When allocating special management company expenses to certain facilities, filers must report combined direct and shared expenses on Schedule 6 of the MGT-CR and included in the Footnotes and Explanations Section of the appropriate SNF cost report. All special allocations must be supported by detailed and well-documented evidence.

The values reported in the MGT-CR should represent the true financial condition of the management company entity, and therefore should reflect all the costs of the management company, not net costs after adjustments.

Schedule 5: Reconciliation of Income and Expenses

- As noted in the general information section of the instructions, this report must reflect the entire financial statement of the reporting entity. Partial reporting is not acceptable. There is a minor exception to this requirement. Certain timing, not permanent, differences between the books of the provider and the MGT-CR may occur which could result in modest variances between the cost report and the provider's books. When this occurs, identify the variances here.

Part 1 – Reconciliation on Income and Expenses per Books to Cost Report

Schedule 5 - Table 1: Net Income/Loss per Management Company Cost Report

Account Number	Location Reference (Line: Column)	Data Element Name	Usage	Instructions
3600.0	L.1.1: C.1	Total income reported on MGT-CR (Schedule 2)	Value (+ or -)	No data input. (L.100: C.1). This cell pulls from Line 100, Account 3600.0 Total Income on Schedule 2.
9300.0	L.1.2: C.1	Total operating expenses on MGT-CR (Schedule 2)	Value (+ or -)	No data input. Equals (L.200: C.1). This cell pulls from Line 200, Account 9300.0 on Schedule 2.
	L.100: C.1	MGT-CR Net income/(loss) before reconciling items	Value (+ or -)	No data input. This cell is a calculation subtracting account 9300.0 from account 3600.0.

Schedule 5 - Table 2: Reconciling Items Reported in Management Company Cost Report but not on Financials

In this table, list any items reported on the MGT-CR but not on the financials.

In Column 1, describe the item. In Column 2, enter the amount. *If you are entering a figure in Table 2, you must include a description.*

Lines 2.1, 2.2, and 2.3 appear automatically. If more lines are required, click on the plus sign to add an additional row.

Account Number	Location Reference (Line: Column)	Data Element Name	Usage	Instructions
	L.2.1 to 2.3: C.1	[Reconciling Items]	Text	Allow multiple row entry.
	L.2.1 to 2.3: C.2	[Reconciling Items]	Value (+ or -)	Allow multiple row entry.

EXAMPLES OF RESPONSES TO SCHEDULE 7.2

Response to Part 1

The provider should attach a copy of the Organization Chart.

Response to Part 2

- A. No costs are allocated down to ABC Company from the Parent/Owner Corporation.
- B. ABC Company consists of three departments: Accounting, Marketing and Administration. The total combined direct operating costs of the three department's equal totals \$100,000. Management has determined that only the Accounting Department Expenditures from the accounting department relate to the Health Care Division. Three components exist within the accounting department consists of three separate groups: Health Care, with has direct costs of \$10,000; Pooled, with direct costs of \$20,000; and Non- Health Care, with direct costs of \$10,000). After a thorough analysis, Management has decided that only \$15,000 (\$5,000 of Health Care and \$10,000 of Pooled) in accounting expenditures is allowable for health care reimbursement per according to Section 206 of Title 101 of the Code of Massachusetts Regulations (CMR) regulation 101 CMR 206.00-Standard Payments to Nursing Facilities. The \$15,000 of allowable accounting costs will be subject to some reasonable method of allocation in a later step. (See Exhibit 2 for a more detailed explanation of the Accounting Department Allowable Expenditures and Allocation Method.)
- C. Health Care Division: Total direct operating costs consist of \$80,000. After analysis, Management has concluded (after analysis) that only \$40,000 of the direct healthcare costs is allowable. This expenditure is allocated to its regional offices based on the percentage of total licensed beds in per region. The total licensed beds operated and/or managed equal totals 12,500. The East Regional Office oversees 5,000 of these beds. Therefore, forty percent (40%) of the Health Care Division's total allowable costs, or \$16,000, has been allocated to the East Regional Office. Based upon some a separate reasonable method of allocation, a portion of the \$16,000 of allowable

costs allocated to the East Regional Office will be allocated to the various Massachusetts' Nursing Facilities at in a later step.

- D. East Regional Office: Total direct operating costs consist of \$50,000. After analysis, Management has concluded (after analysis) that only \$40,000 of the East Regional total direct operating costs is allowable. This expenditure is allocated based on licensed beds covered by this office. Total licensed beds in the east region are 5,000; with Massachusetts beds accounting for 1,000 of these beds. Therefore, twenty percent (20%, or \$8,000) of the East Regional Office's allowable expenditures or \$8,000 has been allocated to Massachusetts facilities.

Massachusetts Regulation Analysis:

A. Parent: None claimed.

B. ABC Company:

1. Accounting Department:

\$15,000 Allowable ABC Company Expenses

\$15,000 * 50% = \$7,500 Allocated to the Health Care Division

\$ 7,500 * 40% = \$3,000 Allocated to East Regional Office

\$ 3,000 * 20% = \$ 600 Allocated to Massachusetts Facilities

2. Health Care Division:

\$80,000 * 50% = \$40,000 Allowable of Health Care Division

\$40,000 * 40% = \$16,000 Allocated to Regional East
