Introduction

The Center for Health Information and Analysis (CHIA), in accordance with its statutory authority under M.G.L. c. 12C, collects cost reports in furtherance of its mission to monitor the health care system in Massachusetts and to provide reliable information and meaningful analysis for those seeking to improve health care quality, affordability, access and outcomes. The data CHIA collects through the Realty Company Cost Report (REA-CR) is used, among other things, to support the rate-setting obligations of the Executive Office of Health and Human Services (EOHHS), which uses the data to establish rates for nursing facility and residential care facility providers, and to complete additional analyses to inform policymaking. Once filed with CHIA, these reports become public documents and will be provided upon request to any interested party.

It is essential that these reports are prepared by persons who are familiar with the regulation 101 CMR 206.00 Standard Payments to Nursing Facilities and/or 101 CMR 204.00 Rates of Payment to Resident Care Facilities. Copies of these regulations may be obtained on the EOHHS website at <https://www.mass.gov/lists/provider-payment-rates-hospitalsnursing-facilities-and-rest-homes>

The CHIA REA-CR is an electronic filing located at <https://chiasubmissions.chia.state.ma.us>.

For assistance in completing these forms, contact the CHIA Help Desk at Costreports.LTCF@chiamass.gov.

IMPORTANT: Please Clear your Cache!

As part of continuous improvement of the Nursing Facility Cost Reports, changes and upgrades have been implemented. In order for the system to function properly, SNF/MGT/REA Cost Report users should clear their web browser cache.

Clearing your web browser cache will ensure that you are viewing the most recent version of SNF/MGT/REA Cost Reports. If you do not clear your cache it may cause your browser to display older versions of SNF/MGT/REA Cost Report and generate error messages.

Instructions on how to clear your cache can be found here: <https://www.mass.gov/guides/clear-your-browser-cache>

Changes To The Cost Report And Helpful Cost Report Filing Tips For CY2022

In an effort to improve cost report accuracy and promote a smoother user experience, below are some changes and cost report filing tips for users when filing the REA Cost Report:

- As an enhancement to the data quality and user experience of all three cost reports, CHIA has instituted a new loading screen when selecting “save and validate” for each schedule. Please wait until the “save and validate” process has completed. The screen tells users to “please wait a moment” as the schedule is validated and will not let the user advance until the process is done. As

a reminder, in order to “lock for review” on the Submission and Attestation schedules, users must “save and validate” each schedule of each cost report.

- CHIA wants to remind providers to pay close attention to a few key areas of the cost report when preparing the NF-CR. Please ensure that you are following the instructions for reporting add-backs from the REA-CR and MGT-CR, where applicable.
- Based on updates to the regulation 101 CMR 206.00 that went into effect in October 2022, expenses paid for using funds from any low interest or forgivable loan administered by EOHHS must be reported as non-allowable costs. These expenses should be self-disallowed.

Filing Requirements

Who Must File?

In accordance with Sections 204.07(b) and 206.08(b) of Title 101 of the Code of Massachusetts Regulations (CMR), each nursing and residential care facility must file or cause to be filed a REA-CR if it does not own its real property and pays rent to either an affiliated or non-affiliated realty trust or other business entity.

When to File

The REA-CR is a calendar year cost report. All nursing facilities that must file a realty company cost report will receive an E-blast notification of the cost report deployment, which will include filing deadlines for the realty company cost report. Additionally, filing deadlines will be posted on CHIA’s webpage located at [Information for Data Submitters: Nursing Facility Cost Reports](#). Reports not received within the filing deadline will be subject to sanctions according to 101 CMR 206.08 or 101 CMR 204.07. No additional extensions will be granted beyond this date.

How to File

The REA-CR is an electronic filing using the CHIA Submissions website at: <https://chiasubmissions.chia.state.ma.us>. Once you submit the electronic submission, you have filed. For additional information on how to complete your submission, please see the Final Check Off section below.

PLEASE NOTE: For optimal performance, CHIA recommends users access CHIA Submissions and the REA-CR using Google Chrome®.

General Information

For assistance in completing your submission, contact the CHIA Long-term Care Facility Help Desk at Costreports.LTCF@chiamass.gov.

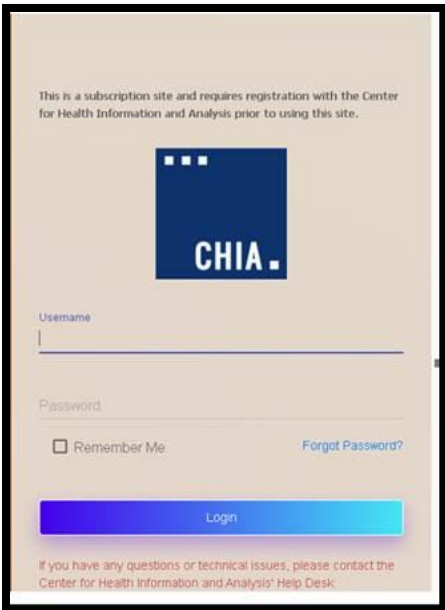

The REA-CR must be completed on the **accrual basis**. **It is essential that each report reflect the entire financial statement of the realty company. (Partial reporting is not acceptable.)** There is a minor exception to this requirement. Certain timing differences between the books of the provider and the claim for reimbursement requirements may occur which could result in modest variances between the report and the provider's books. Schedule 5 of the REA-CR, Reconciliation of Income per Report with Income per Books should identify the variances.

In addition to being a complete financial statement, these forms are used as a basis for establishing rates of payment.

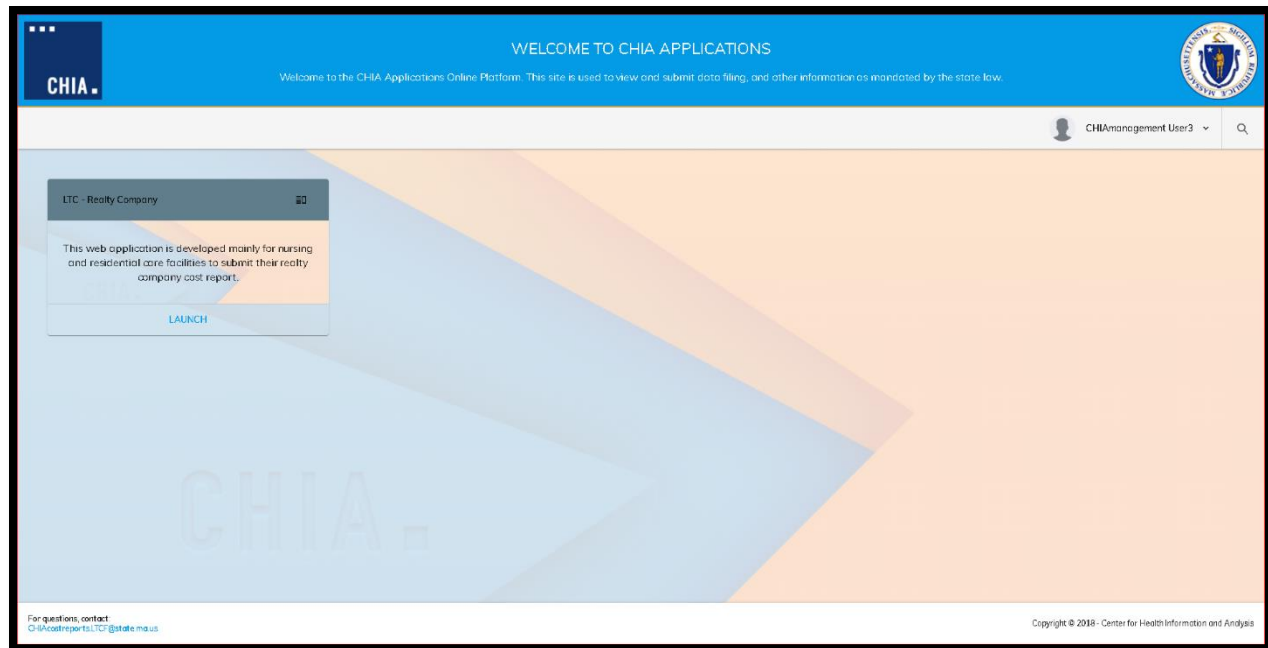

General User Instructions

Logging In and Getting Started

Users will log-in to CHIA Submissions at <https://chiasubmissions.chia.state.ma.us> using their unique Username and Password, as follows:

The image shows a login page for CHIA Submissions. At the top, a message states: "This is a subscription site and requires registration with the Center for Health Information and Analysis prior to using this site." Below this is the CHIA logo, which consists of a blue square with three white dots above the text "CHIA." in white. Under the logo are two input fields: "Username" and "Password". Below the "Password" field is a checkbox labeled "Remember Me" and a link labeled "Forgot Password?". A large blue button with the text "Login" is positioned below these fields. At the bottom of the page, a small line of text reads: "If you have any questions or technical issues, please contact the Center for Health Information and Analysis' Help Desk."

Next users will select the "Launch" button under the LTC Realty Company application module (NOTE: This is the REA-CR.) Users may have access to more than one application, such as the SNF-CR or MGT-CR.

This will bring the user to the home screen of the REA-CR.

Home Screen

Your home screen is customized for your user privileges and will be like the picture below.

Line #	Facility Info	Value
1.1	Facility VPN	0911062
1.2	Facility MMIS Provider ID	[REDACTED]
1.3	Balance Sheet Date	12/31/2020
1.4	Reporting Period: From	1/1/2020
1.5	Reporting Period: To	12/31/2020

Line #	Realty Co Info	Value

1.7	Realty Company Organization ID	9028
1.8	Street Address	[REDACTED]
1.9	City	Winchester
1.10	State	MA
1.11	Zip Code	01890

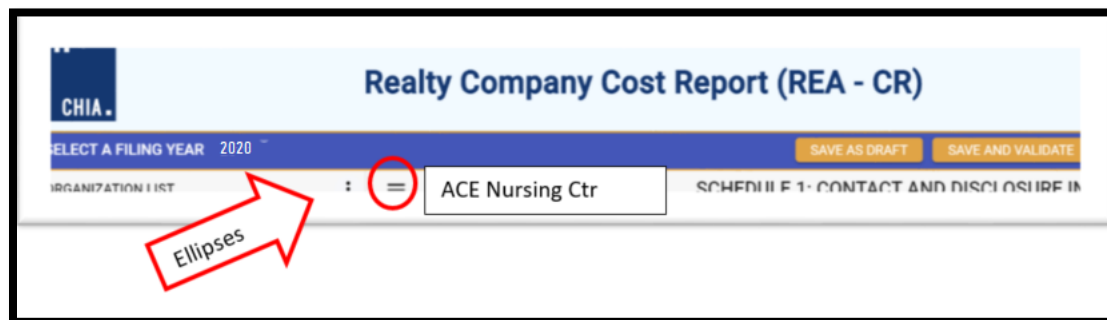

The far-left side of the screen lists all facilities that are registered to your username.

Clicking on a facility name will activate that account and display the information entered in Schedule 1 for the Reporting Year selected.

By clicking on the facility name in the organization list, the system will highlight that facility and activate the cost report schedules for the reporting year selected.

Users with access privileges to only one nursing facility's realty company cost report will not have an organization list in their view.

By clicking on the ellipses, you can collapse the Organization List.

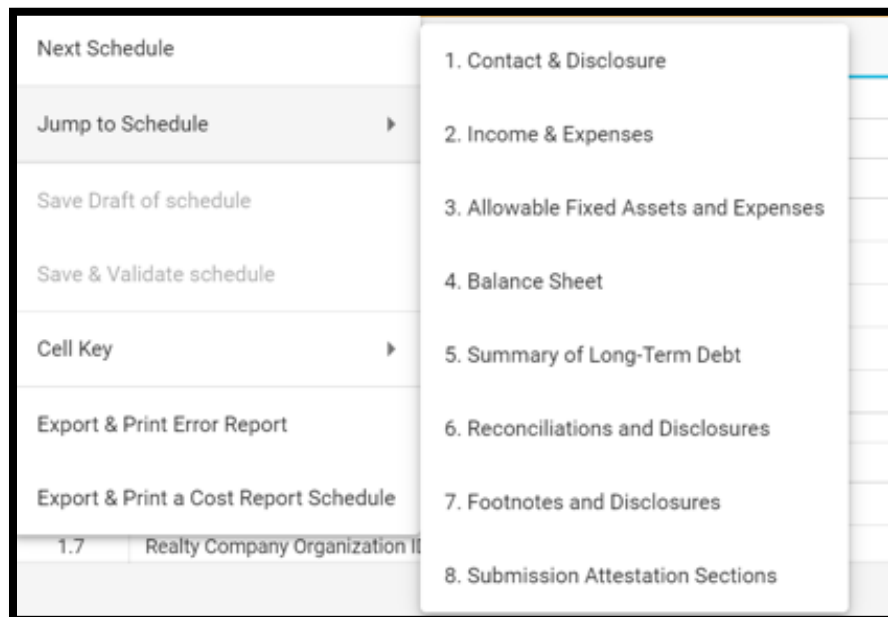

Cost Report Year Selection

A user may change the reporting year by using the dropdown menu at the top of the screen labeled "Select a Filing Year."

Navigating in the REA-CR

Users will need to enter data or provide responses to questions using drop down menu options or buttons for each data field in each Schedule. Users can use the Schedule number listing to the right or select the "Jump To" menu option available in the ellipses.

Saving Your Work

CHIA suggests that you save your reported data at frequent intervals as you move through each schedule of the cost report. To save your work, you can select the “Save as Draft” button which is located at the top right-hand corner of each schedule.

The screenshot shows the top section of the 'Realty Company Cost Report (REA - CR)' interface. It includes the CHIA logo, a title bar, and a navigation area. The 'SAVE AS DRAFT' button is highlighted with a red circle.

A screen will appear to “Cancel” or “Continue”. Select “Continue” to save. A screen confirming that the information is saved will appear. Select “Continue” again to return to the report.

Entering Data

Understanding Cell Colors

Each cell in the electronic cost report has been color shaded. The Cell Color Legend, illustrated below, provides an explanation of each color for how the cost report can be completed. Users are only able to enter information in the cells colored light blue or dark green. Cells with any other color will be either prepopulated from CHIA’s own system or from other cells in the cost report.

Cell Key	
Blue	Input by Data Submitter
Light Green	From CHIA Contact Management System
Dark Green	From CHIA Contact Management System or Submitter Input
Orange	Computation
Yellow	Derived from another Tab
Grey	Not Applicable
Dotted Blue	From Cell on this Tab
Red	Non-Allowable Expense
Red Border Blue	Must be less than or equal to zero

Note: Cells with red borders such as Accumulated Depreciation will automatically be shown as negative numbers.

Cell Locations

To identify the unique Location Reference for a data point, each item will use the Schedule, Line Number, and Column separated by colons such as **Schedule : Line Number : Column** (E.g., the data point for the fourth row of Table 1 on Schedule 2 would consist of **S.2 : L.1.4 : C.1**).

These are helpful when viewing hover messages indicating that the cell refers to another cell.

2.9	9541.5	MA Corp. Excess Tax Non-Income Portion				0
2.10	9580.0	Insurance: Building, Building Improvements, Equipment				20,756
2.11	9547.0	Other Fixed Expenses		0		0
2.12	9502.5	Other Operating Expenses		108,150		108,150
2.13	9502.4	Utilities & Plant Operations Expenses		0		0
2.14	9545.5	Interest on Working Capital			0	0
2.15	9546.0	Interest on Late Payments, Penalties			0	0
		Responsible				

Hover Messaging

Throughout the cost report, you will encounter hover messages when your mouse “hovers” over cells. These hover messages are designed to help in the following ways:

- Assist in providing information on the cell usage, i.e., percentage, number of decimal places permitted in a certain cell, etc.
- Assist with the location the cell where data comes from. This is for cells colored yellow and dotted blue.
- Assist with what information should be reported in the cell.

An example of a grey hover message is illustrated in the picture below. This hover message explains that the data for line 3.3 “Other” is derived from a dynamic table. In this case Table 4.

Dynamic Tables

This cost report uses dynamic tables that can be expanded to allow for flexible entry of additional detailed cost information. These tables will appear to the right of the main schedule tables and require users to enter information in these tables that will be automatically carried over to the main tables.

Users can select the  button to add a line or hover over any added line number and click the red  to remove that line. . An example of a dynamic table is illustrated below:

Data Validations

The MGT-CR includes several edits or checks within each of the eight schedules which need to be managed through the validation process described below. Preparers and submitters will not be able to lock the MGT-CR for review or submit the cost report unless all schedules have been validated and the errors fixed.

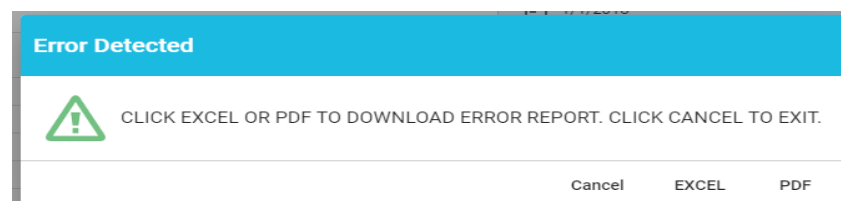

To ease this process, CHIA has created a validation report listing all validation errors. To access the validation report, you will select the:” Save and Validate” Button on the top right corner of each schedule.

When this button is selected, users will encounter the following:

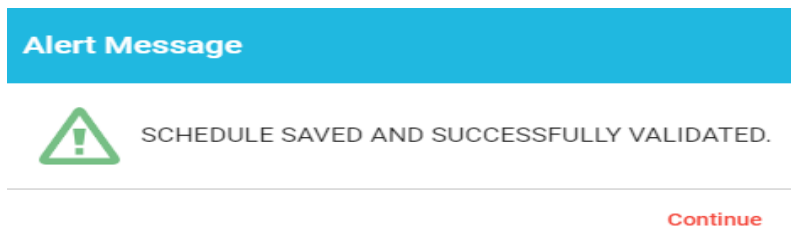

Users will select “Continue”. Once this is done, there will be two results. If there are validation errors, users will need to select the method they would like to view the validation report, as shown below:

The validation report will provide users with the schedule number and line number of the error along with a description of what the problem is.

- If there are no validation errors, users will be notified that their schedule saved successfully and can continue completing the cost report.

Additionally, users can launch the validation reports two additional ways.

First, users can click on the hamburger menu button to pull down the menu options on the top left corner as follows:

Then users will select the "Save & Validate schedule" option. This option validates only the current schedule in your view.

Finally, users can launch the "Export & Print Error Report" from the hamburger icon.

Users should check each box for each Schedule an error report is desired.

Submitting Your Cost Report

All validation errors must be resolved before users can attest and submit their cost reports. The submission process is designed with the following process based on access privileges. Those users with data access privileges can only prepare the report. Users with owner, partner, or officer privileges can certify and submit their cost reports. CHIA recommends that management companies use the following process to successfully complete and submit the MGT-CR.

As illustrated above, users with data access only privileges, also known as preparers, prepare the cost report and, once complete, lock the report for final review. Only users with owner, partner, or officer privileges can certify and submit the cost report, which is managed on Schedule 8 of the report. NOTE: Users who have data access only privileges cannot access Schedule 8.

Preparers:

- Check Line 1.14 certifying the report. Owners, who are also preparers, have this privilege too.
- Select “Lock for Owner Review”

Lock for Owner Review

Owner/Partner/Officer:

- Owners/partners/officers cannot submit until the preparer has locked for owner review.
- Check Line 2.7 certifying the report.
- Click the “Submit” button

Schedule 3: Allowable Fixed Assets and Expenses

Schedule 3 - Table 1: Allowable Fixed Assets and Expenses

- Beginning October 1, 2021, the 101 CMR 206.00 regulations were revised to allow for recognition of allowable fixed assets at their historical fixed costs versus the prior method. You are to report claimed fixed assets using a historical cost method of accounting in accordance with generally accepted accounting principles (GAAP) to ensure proper determination of your capital reimbursement. For further information, consult the 101 CMR 206.00 regulations and the SNF-CR Technical Instructions and User Guide. The SNF-CR Technical Instructions and User Guide includes multiple examples and scenarios to help with proper reporting of allowable fixed assets. It is essential that you report allowable fixed assets as their historical cost so that you can report the proper depreciation expense allowable for the period.
- Table 1 has four (4) columns.
 - In Column 1, enter the Allowable Assets (Basis), Beginning of Year.
 - In Column 2, enter the Asset Additions for the cost report year.
 - In Column 3, enter the Asset Deletions for the cost report year. *NOTE: Values in this column will be populated as negatives.*
 - Column 4, Allowable Assets (Basis), End of Year is a computation, summing Column 1 and Column 2, subtracting Column 3.
