TME Update
The APCD monthly submissions will not require the reporting of the Non-Claims Payment information (PV065 – PV070) or the Health Status Adjustment Tool information (ME124 – ME130) (see attached).

Two APCD data fields will be re-purposed to allow the collection of:
- Attributed PCP Provider ID (Included when Payment Type is Global and there is no assigned PCP Provider.)
- TME OrgID for the Physician Group of the Member’s PCP on eligibility

A third field will be repurposed – at later date to allow collection of Registered Provider Organization Number that will be assigned by the Health Policy Commission.
• Implement quarterly TME reporting and collect this data through a new APCD file. The information collected will be based on date of service as is the current TME practice.

• Data will be submitted quarterly with year to date cumulative information with a four-month lag. In other words, the second quarter data that ends June 30th will include year to date thru June 30th and will submit to the Center by November 1st. Payers will also need to submit the final TME data for a given calendar year fourteen months after the end of the TME reporting year. For example, the final CY 2013 data will be due March 1, 2015.
