

Acute Specialty Hospitals - Shriners Hospitals for Children

2016 Hospital Profile

Until 2011, Shriners Hospital did not collect payments from insurers and relied solely on donations, thus they were not subject to the same filing requirements as other acute and non-acute hospitals in Massachusetts.

Shriners Hospital for Children is a health care system dedicated to pediatric specialty care, research and teaching programs for medical professionals. Children up to age 18 with orthopedic conditions, burns, spinal cord injuries, and cleft lip and palate are eligible for care and receive all services regardless of the families' ability to pay. The hospital system was founded by Shriners International, a fraternity with nearly 200 chapters and thousands of clubs around the world. Shriners Hospitals for Children has 22 facilities in the United States, Canada, and Mexico.

Shriners Hospital for Children - Boston is a 30-bed pediatric specialty hospital, research, and teaching center located in Boston. It treats children with severe burn injuries, complex skin conditions, reconstructive and plastic surgery needs, and cleft lip and palate. It is the only exclusively pediatric, verified burn center in New England. Fifty percent of its revenue comes from inpatient services, and the hospital reported 223 inpatient discharges in FY16, 28% more than in the prior year. Its most prominent cases in the region were partial thickness burns with or without skin graft and skin graft for skin and subcutaneous tissue diagnoses.

Shriners Hospital for Children - Springfield is a 40-bed pediatric specialty acute care hospital dedicated to providing inpatient and outpatient specialty care for orthopedic and developmental conditions including scoliosis, clubfoot, cerebral palsy, spina bifida, cleft lip and palate, rheumatology, and others. Following a strategic plan developed in 2015, the hospital has reinvested in its core service line of pediatric orthopedics and initiated new services in 2016 including post-acute fracture care management, sports health and medicine, and urology. Thirty-two percent of its revenue comes from inpatient services, and it had 91 discharges in FY16, a 6% increase from FY15.

Note: Shriners Hospital Boston (SHB) and Shriners Hospital Springfield (SHS) are part of the national Shriners Hospitals for Children system (SHC) and are reliant upon support from the SHC endowment to cover the costs associated with fulfilling their mission to provide care to patients regardless of their ability to pay. This support is provided through transfers from the SHC's endowment to the hospitals, as these transfers are not considered revenue for the purpose of calculating profitability margin, SHB's and SHS's profitability margins are not comparable to other acute hospitals.
