

INTRODUCTION TO NON-ACUTE HOSPITAL PROFILES

Non-acute hospitals in Massachusetts are typically identified as psychiatric, rehabilitation, and chronic care facilities. CHIA has defined non-acute hospitals in this publication using the Massachusetts Department of Public Health (DPH) and Department of Mental Health (DMH) license criteria. When presenting trends for utilization, costs, and financial performance, CHIA has provided baseline data for each hospital's cohort as a point of comparison.

Specialty non-acute hospitals are not considered a cohort; however, individual specialty non-acute hospital profiles are available.

Behavioral health hospitals are licensed by DMH for psychiatric services and by DPH for substance abuse services.

Arbour-Fuller Hospital	Southcoast Behavioral Hospital
Arbour-HRI Hospital	Taravista Behavioral Health
Bournewood Hospital	Walden Behavioral Care
Haverhill Pavilion Behavioral Health Hospital	Westborough Behavioral HealthCare Hospital
Hospital for Behavioral Medicine	Westwood Lodge Pembroke

Rehabilitation hospitals provide intensive post-acute rehabilitation services, such as physical, occupational, and speech therapy services. For Medicare payment purposes, the federal government classifies hospitals as rehabilitation hospitals if they provide more than 60% of their inpatient services to patients with one or more of 13 diagnoses listed in federal regulations.

Encompass Health Rehabilitation Hospital of Western Massachusetts	Vibra Hospital of Southern Massachusetts
Fairlawn Rehabilitation Hospital, an affiliate of Encompass Health	Whittier Rehabilitation Hospital Bradford
	Whittier Rehabilitation Hospital Westborough

Chronic care hospitals are hospitals with an average length of patient stay greater than 25 days. These hospitals typically provide longer-term care, such as ventilator dependent care. Medicare classifies chronic hospitals as Long-Term Care Hospitals, using the same 25-day threshold.
